Our range of well-mannered horses comes in a selection of colours upon request (subject to availability) and are perfect for an anniversary, engagement proposals, pre and post-wedding photoshoots, social media photos or product marketing purposes.

A photoshoot with horses is a photography session that includes the use of well-mannered horses as a unique and visually striking element in the photographs. You can sit on the horse or stand next to it, walk with the horse on reign or simply be featured in the background. The goal of a photoshoot with horses is to capture the beauty and majesty of these magnificent animals and to create images that are both visually stunning and emotionally evocative.
